

**Victorian Integrate Cancer Services (VICS) 3rd Conference
Thursday 11 May 2017 – Friday 12 May 2017
Melbourne Convention and Exhibition Centre**

Poster Presentation

1. The genomic exploration of castration persistence

Niall Corcoran

2. “You are never alone” – managing patients with chemotherapy symptoms in a nurse-led clinic

Ilana Hornung

3. Restricted ketogenic diet and possible benefits to cancer patients

Shaun Lau

4. Electronic brachytherapy at Monash Cancer Centre

Jim Hagekyriakou

5. A guide for caring for people at the end of life

Garry Tierney

6. Treatment options clarified through regional cancer services plan

Ilana Solo

7. Handing over a regional MDM - levers and opportunities

Ilana Solo

8. Developing a sustainable model of care for cancer survivors

Genevieve Johnston

9. A model for prioritising opportunities to expand home-based and localised care

Jacqueline Sansom

10. Implementing a new discharge planning process in the chemotherapy day unit

Linda Marshall

11. Addressing the quality of life issues of men with prostate cancer using effective models of care

Melinda Williams and Mirela Mathews

12. A joined-up approach to implementation - supporting primary care adoption of the lung and colorectal optimal care pathways through the Victorian primary health networks

Sue Merritt

13. Benefits of a specialist prostate cancer nurse at Western Health

Hayley Allen

14. Improving methods for the identification of malnutrition in culturally and linguistically diverse patients

Heather Davis

15. Partnering with a local community health organisation to provide rehabilitation to cancer survivors

Hayley Allen

16. Development and implementation of a multidisciplinary seminar series in Adolescent and Young Adult (AYA) oncology

Ilana Berger

17. Development of a cancer survivorship model of shared care between oncology specialists and primary health care providers in a regional area

Taryn Robinson

18. Engaging GPS in cancer survivorship

Bianca Bell

19. Improving pathways for cancer diagnosis by analysing patient presentation to the emergency department

Hayley Allen

20. Time for redesign: cancer education programs framework

Amber Kelaart

21. Cancer patients' perspectives on nature: normalizing dichotomous realities

Sarah Blaschke

22. How consumer feedback influenced unit design and model of care

Lisa Marchetti

23. Cancer conversations service improvement grants

Glenn Reeves

24. Patient care and symptom management diary

Bridget Gurry and Kirsten Seletto

25. Oral chemotherapy clinic - improving education and care for cancer patients

Hayley Allen

26. Development of a nurse-led prostate cancer survivorship clinic

Carla D'Amico

27. Effective communication with patients may improve satisfaction and outcomes for nutrition care

June Savva

28. Grampians who, what and where of health service for people affected by cancer

Anna Greene

29. The long and the short of it - consistent information for laryngectomy patients

Seleena Sherwell and Melissa Ford

30. NEMICS oncology patient experience survey: closing the gap between experience and feedback

Melissa Shand

31. The impact of age, accessibility, and socioeconomic status on cancer incidence across western Victoria

Stephanie Cowdery

32. Multidisciplinary meetings in the treatment of breast cancer

Margaret Rogers

33. Breast cancer clinical indicators

Margaret Rogers

34. Lessons learnt through the development of written information with and for cancer survivors from culturally and linguistically diverse backgrounds

Georgina Wiley

35. Prospective analysis of 30 day mortality following palliative chemotherapy for cancer at western health

Hayley Allen

36. Catchment

Chamaree Jasinth

37. Optimising diagnosis and management of lung cancer patients in the west hume

Carole Mott, Cheryl Lancaster and Zee Wan Wong

38. Educating regional nurses in chemotherapy administration, cutting the cost

Danielle Roscoe

39. Trials and tribulations of a regional oncology clinical trials unit

Zee Wan Wong, Vicki Clowes and Carole Mott

40. Peer support from hospital to the home – a partnership in supportive care

Robin Curwen-Walker

41. A study into the safety, efficacy and tolerability of scalp cooling in patients receiving chemotherapy, through the reduction of chemotherapy-induced alopecia

Vicki Durston

42. The role of tubigrip in reducing length of stay in patients undergoing total mastectomy

Vicki Durston

43. Gastric and Gastro-oesophageal Cancer in Regional Victoria

Felanita Hutani
